

Make Your Own Fairy Garden

Inspired by our Fairy Forest, we invite you to make a Fairy Garden at your home. All you need is proper shelter, plants, and pretty items, plus your creativity, to make the Fairies feel welcome!

Think about what will provide comfort and interest to the Fairies when you are making their new home.

Here are some suggestions:

Proper Shelter: in or on the ground, in tree stump or hollow log, around a tree, in a pretty container, wheelbarrow, wooden box, pot or saucer. Select a spot that is somewhat private and easy to visit. Fairies are shy, and they like to have a hiding spot from humans and animals.

Plants: lamb's ear, moss, clover, lily of the valley, violets, grass, and thyme are good plants to consider as you are creating a Fairy home.

Pretty Items: leaves, twigs, acorn tops, pine cones, rocks, pebbles, shells, crystals, jewels, mirrors, small chimes, tiny bells, shiny items like small ornaments, miniature tea sets, and umbrellas will make a Fairy Garden feel like home.
